HIGH LEVEL ACCESS SOLUTIONS

HAILO WIND SYSTEMS

Innovations for a global market

English

HAILO WIND SYSTEMS

Your global partner for access solutions

Hailo Wind Systems is one of the world's market and technology leaders for professional access and climbing solutions in the wind energy sector.

Quality, reliability and safety always have top priority for our products and services. We enable you to look forward to the future relaxed and with confidence.

Hailo Wind Systems – High Level Access Solutions.

"Hailo Wind Systems stands for excellent quality, guaranteed every day by every one of our employees.

THE FASCINATION OF WIND ENERGY

We stand for performance and passion

As inventor of the aluminum ladder in Europe over 50 years ago, Hailo introduced the professional ladder systems into the wind turbines. So Hailo was there right from the start!

Today, Hailo Wind Systems is one of the world's market and technology leaders for safe and reliable access and climbing solutions. With our premium ladder systems, customised service lifts, state-of-the-art fall arresters, smart climb assist systems, efficient movable platforms and much more, we provide everything for professional access systems in wind turbines – and other industries.

Along with our comprehensive range of services, our international, GWO-certified training center, the Safety And Rescue Academy (S.A.R.A.), sets the standard for safety training and education in many industries with its fully-equipped training tower, video tutorials and e-learning.

With our own subsidiaries and service centers on 4 continents, we provide our customers professional, excellently trained contact persons and service technicians worldwide.

We are proud of our passionate contribution to sustainable energy generation and increased safety in wind turbines. And you can feel this enthusiasm in all of our projects.

PRODUCTS

Hailo WIND SYSTEMS

SERVICE LIFTS

We develop service lifts precisely customized to your requirements. Thanks to our comprehensive expertise, all our ladder- and rope-guided service lifts are characterized by their reliability, quality, smart design and low life-cycle costs.

LADDER AND FALL ARREST SYSTEMS

High quality rungs with patented beading and a special anti-slide profile ensure that the quality of our ladders is well-known worldwide. Our rail- and rope-based fall arrest systems offer maximum safety and are also available pre-assembled.

CLIMB ASSISTS AND ACCESS PLATFORMS

Our innovative climb assists and our movable platform are the smart alternative to service lifts and are also ideally suited to retrofit projects. Enjoy the advantages of our brandnew solutions and rediscover climbing technology with Hailo Wind Systems.

HIGH LEVEL ACCESS SOLUTIONS

Access technology for the highest demands

With its decades of experience, Hailo Wind Systems has a comprehensive range of professional products and system solutions. Service lifts, ladder and fall arrest systems, climb assists, movable platforms, tower equipment and much more:

Our product portfolio always offers the very best quality – for safe and reliable access technology in wind turbines.

Working closely together with global players and leading specialists in the wind energy sector, we are continuously investing in the development of new products and technologies. With this sustainable strategic approach, we are one of the leading suppliers for ladders, fall arrest systems and service lifts. Worldwide.

SERVICES

INSTALLATION & INSPECTION

We install our products and provide support for their inspection worldwide. With our extensive manufacturer know-how and our strong global service network, we are there for you at any time – especially when you need quick and uncomplicated support.

MAINTENANCE & REPAIR

We maintain and repair service lifts, ladders and fall arrest systems and much more with manufacturer knowhow. This also includes annual maintenance of DUALlift and Tractel Greifzug components as well as DUALlift general overhaul incl. favorable ring replacements.

SPECIAL SOLUTIONS & EXPERT INSPECTIONS

We provide you expert inspections of PPE, rescue equipment, first aid kits, machine and deck cranes as well as for the entire ladder and fall arrest system. And of course, as with all other services, we provide this on- and offshore and within the scope of retrofit projects.

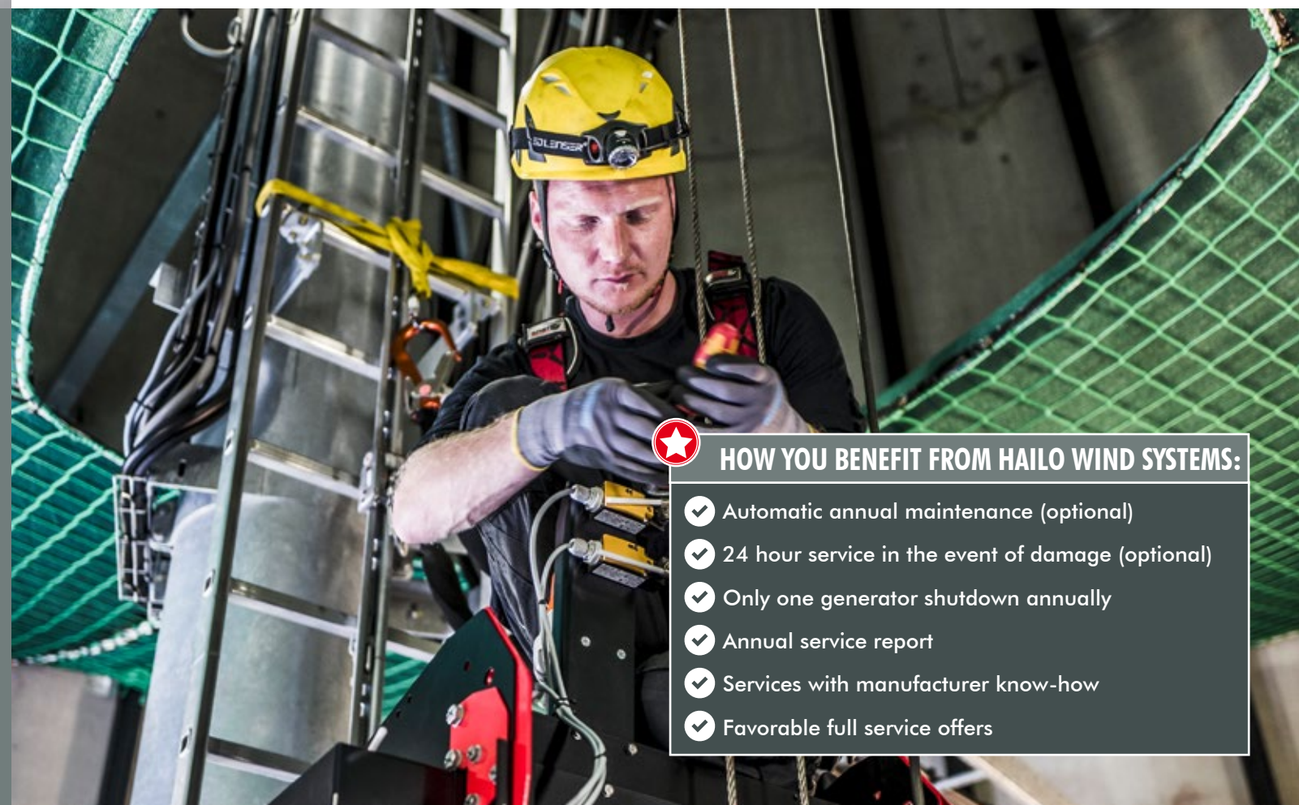
SERVICES BY HAILO WIND SYSTEMS

Expertise and know-how from the specialists

Our decades of experience in the development, installation and maintenance of innovative products to consistently high quality standards symbolizes our expertise in the service industry. And thanks to our excellently qualified service technicians in subsidiaries on 4 continents and a strong global network, we are always on-site fast.

Your satisfaction is our top priority. This is why we are continuously enhancing our service portfolio and support you at any time. As well as project planning, installation, commissioning, maintenance, general overhaul, expert inspection, after sales service or special solutions: We always take the greatest care – and look closely.

Do you have any particular requests? Or special requirements? Perfect! With our worldwide expertise in the service and engineering sector, you'll be surprised how quickly and easily we can provide you customized solutions.



HOW YOU BENEFIT FROM HAILO WIND SYSTEMS:

- Automatic annual maintenance (optional)
- 24 hour service in the event of damage (optional)
- Only one generator shutdown annually
- Annual service report
- Services with manufacturer know-how
- Favorable full service offers

TRAINING

WIND TURBINES

Our GWO-certified Safety And Rescue Academy (S.A.R.A.) provides safety training especially for the wind industry like assemblies, maintenances, rescues, first aid, expert inspections, TSL and much more. We are there for you worldwide, always according to international standards.

RESCUE, FIRST AID AND PPE

In our 15 meters training tower we provide you a couple of professional training courses for rescue, first aid as well as PPE inspections – always with experienced trainers from sectors such as fire department, rope rescue or emergency rescue services.

INDUSTRY, MUNICIPALITIES AND TRADE

Across all sectors we provide you with an extensive range of theoretical and practical training, such as industrial fire protection, high rack warehouses, climbing and ladder technology, firefighting or for working and rescuing in constricted spaces (e.g. for shafts).

YOUR E-LEARNING BENEFITS

- Worldwide available at any time
- Tablet and Smartphone optimized
- Fast and short-term training
- Experience of over 17.000 accounts and 38.000 e-certificates since 2014

GWO
CERTIFIED TRAINING PROVIDER

EVERYTHING FROM ONE SINGLE PARTNER

Your benefits from our all-in-one solutions

COMPLETE SOLUTIONS
Everything for professional access and climbing solutions in wind turbines. Worldwide.
